

PEARL

WHITE
choice of excellence

BRING ALIVE YOUR INTERIORS...

MISSION:-

To serve our valued customer through continual innovations and improvements, through our endeavor to engineering skills with latest designs, modern manufacturing facilities and globally qualitative measures. Our aim is to provide sophisticated exclusive products and value for money. To provide a fine blend of aesthetic and perfection in our products through our application of intelligence, look and obsession.

VISION:-

We deliver the best in electrical technology to our eminent customers. We create a new concepts in design, safety, reliability, performance & luxurious style through the depth scrutinization at all stages of research & production with constant quality checks to produce indigenous & exclusive range of style with substance and safety. We at Philcon, strive to deliver the highest levels of customer satisfaction.

PROFILE:-

PHILCON Exclusive Electrical has been setting standards since **1998**. We bring to you unmatched & unbeatable range of modular switches and accessories with strict adherence to global quality standards with state-of-Art techniques & equipments.

We are into manufacturing a comprehensive range of modular switches and accessories for residential, commercial and service industries. Our manufacturing plant has in-house R&D Division with latest facilities which ensures guaranteed quality products. Carefully testing materials are followed at all stages of production to ensure conformity of standards and high quality performances. Our adroit R&D division is rigorously working to improve, innovate and engineer to excel new products. Philcon research combines novel designs and advanced manufacturing technology to deliver the best in electrical accessories.

Today with our networks all over India, we have emerged as one of the leading players in the market through our commitment to quality and customers. We constantly strive to upgrade our materials to incorporate the latest developments in electrical industry to benefit our eminent customers. **ISI products with ISO 9001: 2000 approved company**, Philcon Exclusive Electrical is the first choice when it comes to modular switches & accessories.

SWITCH MODULES

SWITCH MODULES

PHILCON PEARL exclusive series of modular switches are a combination of superior electrical engineering technology and elegant aesthetics. Screwless installation and modular concept gives you the flexibility like never before. **Silver cadmium oxide contact provides a long life** with high current carrying capacity and overheating does not occur.

Easy to operate, the wide concave rockers switch blend with the walls enhancing the aesthetics of interiors. Available ratings- **6A, 10A, 16A, 20A & 32A / 240 V AC** to accommodate all kinds of wiring possibilities.

SOCKET MODULES

Pearl sockets can carry 6A/16A current without any fear of burning, thus safety is guaranteed. **Use of tunnel-8 one piece phosphorous Bronze spring sheet** gives the tension for contact area, spark does not occur and lasting grip with uniform pressure even after repeated uses. Sockets do not burn when connected to ACs, Geyser, Refrigerator etc. These sockets are child protected as all are shuttered to prevent any accident. The sockets are compatible for 2 pin plugs too. Each and every socket is tested and subjected to **20,000 operations**, when only **5,000 operations** are required as per **ISI standards**.

P482	Dimmer (1000W)	2	10	590

The wonderful electronic step regulators enable you to regulate the intensity of fan according to your comfort and convenience, main advantages are :-

- * Silent hum-free precise control with **six position step type full rotate** for regulator to ensure life long action.
- * **Capacitor based step type, noise free** & state-of-the-art electronically assembled.
- * Designed to withstand voltage fluctuation (low at **150 v** & High at **280 V**)
- * Electronic dimmer have in-built stabilizer effect to meet any variation in voltage supply in a balanced manner.
- * All dimmers are incorporated with sophisticated **electronic circuit for trouble-free operation.**

FAN REGULATOR / DIMMERS

SUPPORT & CONNECTING MODULES

To know whether the mains are ON/OFF , PEARL gives it to you in **6 Amps. indicator lamp.** apart from indicator, an electronic chime bell with a pleasant sound is also available.

In view of over increasing speed in data transmissions, good quality data and telephone connections have become a pre-requisite at all work places.

PEARL Communication sockets are available for all standard types of telephone and data connection with front **shutter for dust protection** when not in use.

RJ - 11 accessory is used world-wide for telephone connections. RJ - 45 is 8 pin data transfer outlet used for computer . RJ - 45 (CAT 5&6) has crimp type terminals in the rear for connection.
